

Welcome to participate as an exhibitor at the scientific festival SciFest 7-9 March 2019!

It is time to start thinking about SciFest 2019! We hope that you want to join as an exhibitor and present your research!

WHAT IS SCIFEST?

SciFest is an activity where scientists from all scientific fields, companies and organizations can meet and present their research. The target group is mainly children and young people and the purpose is to raise the interest in science, attract more students to Uppsala University and to visualize the work done at the university.

WHO IS VISTING SCIFEST?

SciFest 2019 takes place on 7-9th of March at Fyrishov. Thursdays and Fridays are open for schools - from lower secondary school to high school - while the program on Saturday is open to the public. Since SciFest aims to a young public we strongly encourage that at least one person in each stall should be able to speak Swedish.

WHAT HAPPENS ON SCIFEST?

Last year, SciFest offered 69 different exhibitions and a full-featured stage program with Science Slam, lectures and a physics / laser show. Due to the young target group, we recommend that the activities have an interactive design. We hope you want to participate so that we can jointly complete the 2018 program with a wide range of program items.

HOW CAN I CONTRIBUTE AS AN EXHIBITOR?

As an exhibitor, you can choose between arranging a bookable workshop or a non-stop activity. Participation is free of charge. All that sign up as exhibitors are invited to workshops (15 November and 5 February) where you can get help with how to design your activity.

HOW DO I REPORT MY INTEREST?

Attending as an exhibitor at SciFest is fun and rewarding! Report your interest via this link: [Interest Report: Exhibitor at SciFest](#)

Signing up as interested is not a binding registration. The deadline for definite registration is December 4th.

HOW CAN I KNOW MORE?

For questions regarding the role as an exhibitor, please contact:

MedFarm: Ann-charlotte.Hellzen-wallin@uadm.uu.se

HumSam: Gunilla.Sthyr@uadm.uu.se

TekNat: maja.garde.lindholm@uadm.uu.se

For general questions about SciFest, contact Project Manager Katarina Holmborn Garpenstrand, at katarina.garpenstrand@uadm.uu.se or 070-167 9473.

Welcome with your application!

Sincerely,
The SciFest team
